Would I be better off going for the newer Mini, or am I completely crazy trying to do this? The Mac Mini is really nice for this sort of stuff.. I don't know that a Mac Mini is the best for a Plex Media Server PMS can run on almost anything and is incredibly light.. I have a mid-2012 MBP but I'm not wanting to run it all the time, and every other Mac I own has a PowerPC processor.
